ab initio HK Ltd.	N2.E13	HONG KONG	+852 98268466	atin@abinitiohk.com	abinitiohk.com	ab initio HK Ltd. is a Digital Marketing Studio providing services in the fields of Website/App Design & Development, Social Media Marketing and Online Advertising. 'ab initio' is a Latin term meaning 'from the beginning' and we help SMEs and Startups taking their first steps in Digital Marketing. We set ourselves apart by decoding all the tech talk and jolling it down to layman English for our clients. This helps them concentrate on their business objectives and the subsequent results, rather than expending time on decoding the jargon. There are two principles we stand by: user-friendliness and great design. Qualcomm	N2.A110,N1.EMR3	CHINA, PEOPLES REPUBLIC OF	+86 10-57760666	chinaqr@qualcomm.com	www.qualcomm.com	Qualcomm Incorporated (NASDAQ: QCOM) is a world leader in 3G, 4G and next-generation wireless technologies. Qualcomm Incorporated includes Qualcomm's licensing business, QTL, and the vast majority of its patent portfolio. Qualcomm Technologies, Inc., a wholly-owned subsidiary of Qualcomm Incorporated, operates, along with its subsidiaries, substantially all of Qualcomm's engineering, research and development functions, and substantially all of its products and services businesses, including its semiconductor business, QCT. For more than 25 years, Qualcomm ideas and inventions have driven the evolution of digital communications, linking people everywhere more closely to information, entertainment and each other. A leading provider of voice and video communication technologies over IP and wireless networks. We will showcase: 1) BEEH –Customizable multi-platform, multi-protocol, Video Communications client and SDK to add VoLTE/IMS/RCS Voice, Video, and Messaging capabilities to any application, device, or chipset. 2) PROLAB – IMS/VoLTE/RCS testing, validation, and quality measurement solution, emulating a wide range of real-world network conditions for real-time testing of Voice and Video over IP devices including Core-Network, UE and conference server. 3) VoIP protocol development toolkits: including IMS, SIP, Diameter, ICE Nat Traversal, MSRP, H.323, and more. 4) eVident - Comprehensive Voice and Video Network Monitoring solution. The world first ICS Digital Relay commercialized by RF Window has Interference Cancellation System eliminating Oscillation between Service and Donor Antennas by using DSP(Digital Signal Processing). The ICS system is able to effectively eliminate all multi-path signals including: direct feedback from the coverage antenna, indirect feedback from predictable obstacles (e.g. buildings, bridges, mountains) and can even cancel indirect feedback from unpredictable obstacles (e.g. vehicles, trees) despite changes in feedback signal timing and amplitude on 2G, 3G, and LTE networks. Through the ICS-technology, RF Window will make a great contribution to build more stable and cost-effective mobile network reducing CAPEX and OPEX.
